

We would like to introduce you to Cuisine Foodservice.

At Cuisine Foodservice we believe in the traditional values of customer service, offering value for money and in being fair and honest with our customers. We seek to build ongoing relationships with our customers, not rely on gimmicks and cut price deals. We also believe in treating our suppliers fairly and we only work with independent suppliers who we know share our values. Thus we seek to establish firm partnerships where we can depend on our suppliers and our customers can rely on us.

We can supply all types of food including dairy, bakery, fresh produce, meat general groceries and frozen products. We can also offer cleaning and disposable products, crockery, uniforms and medical products and we can also offer competitive deals on gas, electricity, telecoms and insurance.

We work with a whole range of suppliers, some local and some national, so we can tailor an offer that will exactly meet your requirements.

Cuisine Foodservice may adopt traditional values but that doesn't mean we are behind the times. We use the latest technology to maximise the efficiency and cost-effectiveness of our operation. What's more our fully flexible IT systems could also accommodate all of your existing ordering and invoicing procedures so causing you minimum disruption.

Cuisine Foodservice can offer you top quality products from trusted suppliers, first class service from people who know and care about their customers, competitive prices and efficient administration.

Our Operations Manager, Steve Jones, would welcome the opportunity to chat through our offer and explain in more detail just how much Cuisine Foodservice Ltd could do for you. He can be contacted on 07528 464979.
